With nearly 30 years of extensive sales experience, Arvind More leads by example and has been instrumental in securing numerous high-value and critical project closures. His deep product knowledge and strong market insight make him an invaluable asset to the organization.

THAHIR PARAKKAL
Assistant Manager, (Lighting Design & Support)

Mr. Thahir Parakkal has extensive international experience in successfully designing and delivering numerous projects across the UAE, Qatar, and India.

Victoria Terminus Station

Façade Lighting : - Design, supply, and installation of a customized façade lighting system for Victoria Terminus Station. The project aimed to accentuate the station's iconic architectural features with elegant, uniform illumination while minimizing glare and light pollution. Weatherproof, durable fixtures were integrated to ensure long-term performance with minimal maintenance. The result transformed the station's nighttime presence, highlighting its heritage grandeur and creating a welcoming visual identity.

Scope of Work - Design, Supply & installation of Facade Lighting

Army Navy Building

Façade Lighting

A turnkey façade lighting project delivering a refined night-time identity for the Army Navy Building. The design focused on highlighting the building's structural lines, textured surfaces and entry features while controlling glare and limiting light spill into surrounding areas.

Scope of Work

Design, Supply & installation of Facade Lighting

Projects successfully completed by our designers across various organizations,

Saligao Church

Façade Lighting

Design, supply, and installation of a customized façade lighting system for Saligao Church. The project aimed to highlight the church's architectural features with warm, elegant illumination while ensuring minimal glare and light pollution. Weatherproof, energy-efficient fixtures were used to guarantee durability and low maintenance. The lighting design transforms the church's nighttime presence, creating a serene and inviting visual identity for visitors and the community.

Scope of Work

Design, Supply & installation of Facade Lighting

David Sassoon Library

Façade Lighting

Design, Supply, and Installation of Façade Lighting for the David Sassoon Library, enhancing the architectural features with elegant illumination. The project focused on creating a visually striking nighttime presence, combining energy-efficient fixtures with precise lighting control to highlight the building's structural and aesthetic elements.

Scope of Work

Design, Supply & installation of Façade Lighting

Projects successfully completed by our designers across various organizations,

Panjim church

Façade Lighting

Design, supply, and installation of a customized façade lighting system for Panjim Church. The project aimed to highlight the church's architectural features with warm, elegant illumination while ensuring minimal glare and light pollution. Weatherproof, energy-efficient fixtures were used to guarantee durability and low maintenance. The lighting design transforms the church's nighttime presence, creating a serene and inviting visual identity for visitors and the community.

Scope of Work

Design, Supply & installation of Facade Lighting

Hongkong Bank HQ Mumbai

Façade Lighting

Design, supply, and installation of a dynamic façade lighting system for the headquarters building. The solution highlights the architectural form with elegant, energy-efficient LED technology, ensuring uniform illumination, minimal glare, and high durability.

Scope of Work

Design, Supply & installation of Facade Lighting

Projects successfully completed by our designers across various organizations,

Gateway of India

Façade Lighting

Design, supply, and installation of a customized façade lighting system for the iconic Gateway of India. The project highlights the monument's architectural grandeur with carefully positioned fixtures that provide warm, uniform illumination while preserving its historical character. Weatherproof and energy-efficient lighting solutions were employed to ensure durability and minimal maintenance, transforming the structure into a striking nighttime landmark.

Scope of Work

Design, Supply & installation of Facade Lighting

Standard Chartered Bank HQ

Façade Lighting

Design, supply, and installation of a dynamic façade lighting system for the headquarters building. The solution highlights the architectural form with elegant, energy-efficient LED technology, ensuring uniform illumination, minimal glare, and high durability.

Scope of Work

Design, Supply & installation of Facade Lighting

Goa Secretariat

Façade Lighting

Design, supply, and installation of a customized façade lighting system for the Goa Secretariat. The lighting concept was developed to enhance the building's architectural features, providing elegant and uniform illumination while minimizing glare and light pollution. Weatherproof fixtures were carefully selected to ensure long-term durability and low maintenance. The result is a sophisticated nighttime presence, highlighting the Secretariat's prominence and creating a dignified public visual identity.

Scope of Work

Design, Supply & installation of Facade Lighting

Bombay Port Trust HQ

Façade Lighting

Delivered a complete façade lighting solution for the Bombay Port Trust, from concept design to supply and installation. The scheme uses warm CCT and precise beam control to accentuate cornices, arches, and masonry while minimizing glare and light spill to the waterfront. Energy-efficient luminaires with marine-grade, weatherproof housings ensure durability in coastal conditions. Centralized controls enable timed scenes for daily operation and special events

Scope of Work

Design, Supply & installation of Facade Lighting

Emirates Palace Hotel, Abu Dhabi
